FAST TRACK – a carefully crafted Cloud Hosting Adoption Strategy designed to meet today's demands on the Enterprise. Provides an in-depth view into the entire business portfolio to evaluate and rank IT assets according to criticality, cost, complexity, and ability to migrate to a Cloud hosting provider. This battle-tested approach to Cloud adoption allows organizations of any size to quickly make decisions and realize the benefits of today's Cloud-based hosting technologies.

EAGLE EYE – a service that provides a wholistic view into the Cyber-readiness of an organization's IT services and capabilities. Our solution is a mass fact-finding mission that utilizes best practices and out-of-the-box thinking to identify and document threats to the organization. Additional capabilities include services to track progress, establish threat-based heat maps, and report on compliance, governance, and regulatory commitment.

Chatter Analytics Decision Engine (CADE)

A HumanIT's SBIR Analytics Technology that combines a unique blend of machine learning, custom algorithms, and business intelligence to maximize the strategic value of organizational information to accelerate and improve the decision making process. CADE provides on-demand reporting that optimizes leadership's ability to make strategic mission impacting decisions with confidence.

Small Business Innovation Research (SBIR) Information

The SBIR program is a competitive initiative established by Congress in 1982 to encourage small businesses to engage in Federal Research and Development to solve Governmental challenges.

- Phase I – Determines the scientific and technical merit and feasibility of a proposed effort
- Phase II – Typically a demonstration phase in which prototypes are built and tested
- Phase III – Work that derives from, extends, or completes a SBIR Phase I or II capability

Benefits of a SBIR Phase III Award Include:

- Acts as Sole Source fully justified by Phase I and II Small Business competition
- No workshare requirements – Ability to partner with both small and large businesses
- May be used to acquire a wide variety of solutions fulfilling a broad range of requirements
 - Products, Production, Services, Integration, Research, and Development
 - Services and Materials can be acquired on the same contract
 - Studies and Analysis and other complex project work can be performed
- All colors of Federal Funds (except SBIR \$) -- Contract Types: CP, T&M, FFP, etc.
- Supports contracts at all Security Classification levels

CADE SBIR Extensions:

- **CADE-P:** Portfolio Analysis Tool
- **CADE-C:** Cybersecurity Module
- **CADE-D:** Data Analytics Engine
- **CADE-E:** Enterprise Analytics
